APPLICATION :

Packing Conveyors are used in all Industries for transferring different types of material mention below :

Conveyors are major used by the Pharmaceutical Industries for transferring their Products (Blister Stripes, Tablet Stripes, Capsule Stripes, Bottles Packs etc.), Beverage Products, Chemical Products, Canning products, Confectionery Products, Cosmetic Products, Dairy Products, Meat Products, Bakery Products etc.

PACKING CONVEYOR

PRODUCT DESCRIPTION :

Him Conveyor Belt are self-contained unit ideally suited for conveying purposes as stated in application. Our Packing Conveyor Belt are made out of Stainless Steel 304 AISI material quality to suit the cGMP norms & standards. Our Conveyor top surfaces are design in the single piece construction to avoid the crevices & cavities & the tops are matte polish to give the elegant finish. The total length of the machine is 8 feet (in our standard models).

INCLINED PACKING CONVEYOR

MECHANISM :

Our Conveyors are design with the self-aligning bearings facility, which ensures smooth and trouble free rotation of the rollers and the mechanism. Our entire mechanism runs on the 'ISI' make reduction gear box and the motor, which are mounted on the heavy fabricated structure. The gear box and the motor are aligned precisely to give the jerk less and noiseless performance for a long time. Three-step pulley is provided for adjusting the speed as well as for getting different range of the rotations. All of our Conveyor models are provided with the Height adjustable bolts for the ease of the floor alignments. All expose parts are made out of the Stainless Steel 304 AISI material quality, to follow the cGMP norms. Conveyors are supplied with the 'ISI' make Stator for electrical contact & connection.

**IMPORTED 'ITALY' MAKE
ENDLESS BELT**

INCLINED PACKING CONVEYOR
(For Online Printing Use)

SALIENT FEATURES :

Available in Stainless Steel 304 / 316 (GMP MODEL) as well as Standard Model. Available in all model as per required speed, LENGTH UPTO 60 FEET, height & width. Conveyor Top is made of 16 SWG sheet of SS 304 material quality with matte finish. Conveyor Belt is supplied with 3 speed pulley. Special Self-aligning bearings ensure smooth and trouble free rotation of the Roller. Compact drive unit, this enables optimum usage of the belt till edge of the table.

Endless molded belt (IMPORTED 'ITALY' MAKE) made of food grade material (Green/White etc.) with PVC coating for better finish, aesthetics GMP & longer life. collapsible Design, so that it occupies less storage space & also reduce the transportation cost. Superior design results in smooth & trouble free operation in the long run. Sturdy structure to withstand heavy loads.

PACKING CONVEYOR
(For continuous online operation)

32 Feet Long

60 Feet Long

OPTIONAL ACCESSORIES IF REQUIRED :

Variable Speed Pulley. Variable Frequency Drive along with the separate Panel Board. 4 feet narrow attachment with the height adjustable arrangement can be provided to be attach with the Blister Packing machine or any other specific requirements. Additional electrical connection board can be design & attachment along with machine the machine on the other end or as desire. Nylon pads under the Height adjustable haunting bolts provided for the scratch free surfaces.

**We also design & manufacture the
Customize CONVEYORS as per client's specific requirements.**

Offering a wide range of products like Stainless Steel Furniture & Machinery, printed aluminium collapsible tubes, latex/lacquer tubes, closed and ophthalmic nozzles, at very competitive prices...

An Overview

Devoted to offer highest quality products, Started in 1970 & registered in 15.10.1974 with DIC as reg. no. (06)(10)(01342) and since then it has been serving in this field of industry giving consistent performance. Work for specialized fabrication for industrial products, S.S. Fabrication jobs for Pharma industry, furniture items for almost all section of pharmaceuticals industries, machinery & change part as per carbon copy.

Now, at present from 2006 the company is manufacturing not only machinery, SS furniture & Fabrication but also manufacturing and supplying of products like Printed Aluminium Collapsible Tubes, Latex/Lacquer Tubes, and Closed and Ophthalmic Nozzle by name Himachal Pharma & Tube Packs Regd. in DIC as Regd. No. 02/10/00112. Our products are widely used in the pharmaceutical industry, and for cosmetics, toiletries.

Accentuating on quality and streamlining of manufacturing process, we stay ahead of our competitors by providing our clients with one stop solution for their requirements.

VISION

To become leading company in the field of pharma packing & other industries in India and subcontinent to provide best quality products and services.

Infrastructure :-

Supported by sound infrastructural facilities we have been able to meet the bulk requirements of our products. We have a state-of-the-art manufacturing unit that is spread over an area of 15000 sq. ft. All our units are backed by sophisticated machinery to provide cutting edge solutions to all our clients.

We have following machines equipped at our manufacturing unit:

At Stainless Steel Fabrication & Machinery (Engg.) Unit:

- * Hydraulic Press Brake
- * Argon Arc Welding, Gas welding, Copper Welding
- * Electric Welding, Estelline S.S. Welding, spot welding
- * Flexi-Shaft Grinding, Flexi - Shaft Buffing
- * Seven(7) Lathes Machines in size 4' to 20'
- * Hand Press
- * Shearing
- * Surface grinder
- * Slotter Machine
- * Shaper Machine
- * Milling Machine
- * Radial Drill

At Aluminium Tube Mfg. Unit:

- * Extrusion Press 5 No.
- * Trimming Machine 4 No.
- * Elining Oven 2 No.
- * Lacquer machine 3 No.
- * Lacquers Oven 2 No.
- * Coating & Printing Offset Machine 1 No.
- * Latex machine 1No.
- * Scrap Machine
- * Complete Tool Room equipped with Lathe Machine & all other machines

All the machinery used in the manufacturing process is kept under strict inspection of technocrats who not only rectify the error which may bar the manufacturing process but also ensure that they yield excellent output at low maintenance cost.

MATERIAL USED:

S.S. Material – SS 316L, SS 316, SS 304L, SS 304, All type Pipe fittings & as per required.

Allied Products: Teflon, Nylon, Acryl Sheets, Helm Sheets & many more.

Metals: Bronze, Gun Metals, Copper, Aluminium & Brass etc.

M.S Material – M.S., EN-8, EN-24, EN-31, EN-51, D2, D3, Carbon Steel, Dectune & Dra Bar etc.

Aluminium Slug - Purity 99.97 % with Test Certificate.

Paint and Coating - DIC Ltd., Micro Ltd.

Cap - Parma Approved (size as per required).

Quality Assurance :-

Growing as a well established manufacturer, we have adopted all the quality management techniques to deliver high quality products. Having a wide experience over one decade, we have put forth our own range of machines and allied products that assures the clients of better quality and give them maximum value for their money.

We start our quality check process right from the procurement of the raw materials and it is carried out until the final shipment. We have appropriate measuring and testing equipment for checking the quality of our products. Moreover, the finished machines are again thoroughly tested as per ISO norms on the following parameters:

- Durability
- Performance
- Dimension
- Conformity to relevant designs and technical specifications
- Casting

OUR PRODUCTS (ENGG. UNIT): QUALITY CONTROL SECTION

- SS Chairs (fix & revolving)
- SS 316 Powder sampler
- SS Hygienic storage sampler
- SS Mice cages & SS Bottle rinser

OUR PRODUCTS (ALUMINIUM TUBE MFG. UNIT):

ALUMINIUM COLLAPSIBLE TUBES

Business Type Manufacturer / Supplier

Year Established 2006

Products Manufacturing and Supplying:

Printed aluminium collapsible tubes, aluminium collapsible tubes, collapsible tubes, aluminium tubes, printed aluminium tubes, ophthalmic tubes, packaging tube, aluminium packaging tube, aluminium collapsible tube for packing, aluminium tubes for pharma, and printed aluminium tubes for pharma.

Products/Services

silicon based liquid gasket:

Aluminium Collapsible Tubes Long Nozzle Aluminium Collapsible Tubes Long Nozzle in all lengths and diameters ranging from 10mm to 25mm. Also conical tubes for volume & freight reduction. Tubes for packing pharmaceutical products, cosmetics, toothpastes, paints and other applications. Lengths can vary according to requirements Today, the Long Nozzle is used for adhesives.

Printed Aluminium Collapsible Tubes:

Printed Aluminium Collapsible Tubes Aluminium Collapsible Tubes in all lengths and diameters ranging from 10mm to 25mm. Also conical tubes for volume & freight reduction. Tubes for packing pharmaceutical products, cosmetics, toothpastes, paints and other applications. The Long Nozzle is used for adhesive.

Aluminium tubes for Pharma:

Aluminium tubes for pharma, Aluminium tubes for pharma, in all lengths and diameters ranging from 10mm to 25mm. Also conical tubes for volume & freight reduction. Tubes for packing pharmaceutical products, cosmetics, toothpastes, paints and other applications. Lengths can vary according to requirements.

Aluminium tubes for Pharma:

Aluminium tubes for pharma, Aluminium tubes for pharma, in all lengths and diameters ranging from 10mm to 25mm. Also conical tubes for volume & freight reduction. Tubes for packing pharmaceutical products, cosmetics, toothpastes, paints and other applications. Lengths can vary according to requirements.

Printed Aluminium Collapsible Tubes:
